

GAURAV SISODIYA

COMPUTER SCIENCE STUDENT | ASPIRING FULL STACK DEVELOPER

Bhopal | gauravsinghsisodiya962@gmail.com | 8602421846 | [Linkedin](#) | [Github](#) | [LeetCode](#)

CARRER OBJECTIVE

Results-driven Computer Science student specializing in full-stack development with expertise in modern web technologies. Proficient in building dynamic, responsive applications using React, Node.js, and MongoDB. Demonstrated ability to architect complete web solutions from frontend UI/UX to backend API development. Strong foundation in data structures, algorithms, and database management with hands-on experience in creating scalable, user-centric applications.

EDUCATION

Bachelor of Technology in Computer Science & Business System , 2022-2026

Sagar Institute Of Research And Technology, Bhopal CGPA : 6.40

HSC (12th), 2021-2022

COROLLA PUBLIC SCHOOL, MULTAI, BETUL Percentage: 74.80%

SSC (10th Class), 2019-2020

ANAND PUBLIC SCHOOL, MULTAI, BETUL Percentage: 74.33%

TECHNICAL SKILLS

- Programming Languages : javaScript, Java
- Frontend : HTML, CSS, Tailwind CSS, React.js
- Backend : Node.js, Express.js, Postman
- Database : MongoDB, AppWrite
- Tools & Others : VS Code, Git, GitHub, Vercel

PROJECTS

Hyper Blogs : Full Stack Blogging Platform

- Core Features: Developed a comprehensive blogging platform enabling users to create, edit, delete, and update blog posts with integrated image upload functionality, providing a complete content management experience
- Authentication & Backend: Implemented secure user authentication system using Appwrite Backend as a Service, ensuring robust user management, data security, and seamless backend operations
- Frontend Development: Built responsive and intuitive user interface using React.js with Tailwind CSS for modern styling, ensuring optimal user experience across all device types
- Technology Stack: React.js, Tailwind CSS, Appwrite, Vercel, JavaScript - delivering a scalable, performance-optimized full stack solution deployed on cloud infrastructure

Vidia : Full Stack Video Sharing Platform

- **Feature-Rich Video Platform:** Developed a comprehensive video sharing application enabling users to upload videos with custom thumbnails, like and comment on content, receive personalized video recommendations, and perform full CRUD operations (create, read, update, delete) on their content with an intuitive user interface
- **Secure Authentication System:** Implemented robust user authentication and authorization using JWT tokens and Express.js middleware, ensuring secure user sessions and protected routes with optimized database queries through Mongoose aggregation pipelines for enhanced performance
- **Responsive Frontend Architecture:** Built a dynamic and responsive user interface using React.js and Tailwind CSS, featuring reusable components, mobile-first design principles, and seamless user experience across all device types with modern UI/UX patterns
- **Technology Stack Integration:** Utilized a modern full-stack architecture combining React.js for frontend, Node.js and Express.js for backend services, MongoDB for data storage, Tailwind CSS for styling, JWT for authentication, and Postman for API testing and documentation
